Subject: REVISED: R9 briefng materials for Administrator's Feb. 10 briefing on CA Water/Bay Delta
R9 briefing materials Bay Delta RA's FEB 10 call with Administrator 02 06 14.pdf

Jared & Jane:

Thanks for your good comments.

I've made the changes you requested and consolidated all of the moving parts into a single pdf that you can forward to HQ.

I'll be in the office Friday if you'd like me to do anything more.

Otherwise, I'll be working on the "drought emergency" briefing paper for the Administrator's upcoming visit to CA.

Tim

Subject: R9 briefing materials for Administrator's Feb. 10 briefing on CA Water/Bay Delta
Importance: High

I am bringing up two hardcopies of the materials we discussed with you yesterday. We will also provide them to Roger Gorke in OW. If you want us to send them to anyone else in HQ, please let us know.

Let us know if you want any changes. In the meantime, Tim will be returning his attention to a paper on drought for the Administrator's visit to L.A. next week.

Tim will be in tomorrow; I'll be out but available. Tim and I will both be at the Lab on Monday for first day of Water managers retreat, so will miss the briefing, but I anticipate NEPA and ORC will be on hand to assist you as needed. You can always reach me on Monday if you need anything.
